35 U.S.C. 112, first paragraph

Claims 14, 21-26 and 28 are rejected under 35 U.S.C. 112, first paragraph, the office action asserting that while the specification is enabled for an intracellularly binding immunoglobulin molecule comprising the amino acid sequence of SEQ ID NO:3 and a variable light chain wherein said immunoglobulin specifically binds BCR or BCR-ABL, it does not reasonably provide enablement for i) an intracellularly binding immunoglobulin molecule comprising a heavy chain which exhibits 95%, 96%, 97%, 98%, or 99% identity to SEQ ID NO:3, and a variable light chain, which doesn't specify to what it binds, or ii) an intracellularly binding immunoglobulin molecule comprising a variable heavy chain which exhibits 95%, 96%, 97%, 98%, 99% identity to SEQ ID NO:3 and a variable light chain which binds to BCR or BCR-ABL.

Applicant respectfully traverses. However, Applicant has cancelled without prejudice, the instant claims solely for the purpose of advancing prosecution, rendering their rejection moot.

Applicant respectfully submits that the instant claims are allowable as written and respectfully request favorable action by the Examiner.
